

FELICITY ABEL

SOFTWARE ENGINEER

Email: felicityabel99@gmail.com, Portfolio: devfelz.vercel.app, LinkedIn: [Linkedin.com/in/devfelicity](https://www.linkedin.com/in/devfelicity)

SUMMARY

Frontend engineer with about 5 years of experience delivering optimized, user-focused web applications in e-commerce and fintech. Skilled in React.js, TypeScript, and automation testing. Increased sales by 20% through rebuilding an online grocery store and contributed to ₦1 billion in sales in a month at Bumpa. Adept at collaborating with cross-functional teams to deliver scalable, accessible applications.

TECHNICAL SKILLS

Frontend • ReactJS • TypeScript • NextJS • React Query (RTK)	• Redux • context API • Web accessibility & Performance optimisation • Apollo/GraphQL	Testing/Debugging: • Jest • Cypress • React Testing Library	Backend: • Nodejs • Express • MongoDB • Supabase	Tooling and Workflow: • Git • Clickup • Agile Methodologies

PROFESSIONAL EXPERIENCE

Software Engineer, Bumpa	Mar. 2023 - Present
• Played a key engineering role in helping Bumpa reach ₦1 billion in sales within a month by delivering scalable and high-performing frontend features using React, Redux, and TypeScript. • Led development of mission-critical tools: CRM dashboards, multi-location management, POS systems, and Google/Facebook ad integrations. • Architected and shipped responsive UI components with strong emphasis on WCAG accessibility, SEO, and performance optimization. • Wrote modular, reusable code using component-driven design systems and collaborated closely with product managers and backend engineers to align with business needs. Developed E-Commerce Solutions: Delivered key features such as multi-location management, CRM tools, point-of-sale software, and ad integrations (Google/Facebook) to optimize business performance. • Cross-functional collaboration: Partnered with product, design, and backend teams to scope features, plan sprints, and ensure scalable, user-centric solutions through thorough code reviews and peer sessions. • Mentored a frontend intern, guiding them through modern JavaScript, React, and development best practices — contributing to team capacity and skill growth.	
Frontend Engineer, Regxta	Sept 2022 - Mar 2023
• Led the frontend team in developing a robust fintech web application, providing tools for managing loans, agents, customers, transactions, and expenses. • Architected and implemented a comprehensive Admin Dashboard with full CRUD functionality, reducing manual workflows by over 70%. • Collaborated cross-functionally with product managers, designers, and backend developers to ensure alignment with business goals and user needs. • Championed clean code practices, reusable components, and performance-optimized architecture using React.js and TypeScript.	
Frontend Engineer, Pricepally	Sept 2022 - Mar 2023
• Rebuilt the company's online grocery platform by migrating from plain JavaScript to a fully optimized React.js + Redux web application. • Enhanced platform performance, responsiveness, and user experience, resulting in a 20% increase in online sales. • Collaborated with UI/UX designers, product managers, and backend engineers to translate business goals into scalable, maintainable code. • Implemented component-based architecture and ensured cross-browser/mobile compatibility across key pages and flows.	
Frontend Engineer, Taquatech	Jan 2020 - May 2021
• Worked as a Frontend Engineer to design and develop an e-learning solution tailored for high schools and universities, enhancing their ability to deliver digital education effectively. • Led a 6-month coaching program for a class of 5 interns, teaching HTML, CSS, and JavaScript, which resulted in a 30% increase in intern retention rate. • Actively participated in software development projects and collaborated with cross-functional teams to ensure timely delivery of solutions.	

EDUCATION

Software Engineering Training

October 2024

ALX Africa

- **Frontend Development Specialization:** Mastered modern JavaScript (ES6), TypeScript, React.js, Redux, advanced HTML/CSS, and responsive design principles Thesis on "Technological Advancements within the current Mechatronics Industry".
- **Backend Development Specialization:** Developed skills in Node.js, Python, MySQL, NoSQL, Redis, and authentication systems. Implemented solutions for pagination, caching, queuing, and user data management, with a strong focus on unit and integration testing.

BSc. Home Economics

May 2014 - May 2016

University of Uyo, Nigeria

ADDITIONAL INFORMATION

- **Languages:** Native English
- **Certifications:** Software Engineering certificate, ALX Africa
